

Artist: Calika  
Album: Crooked  
Cat no: ABO24  
Date: 31<sup>st</sup> August 2009

Track listing:

1. Crooked
2. Mega Mega
3. I Still Dream Of You
4. Reminders
5. A Serpentine Tale

## *Crooked*

*Crooked is an adjective. When something is said to be crooked, it is bent, twisted or not in a straight line. Thus a deformed object is crooked. For example: the picture is crooked- move it a little to the left. In this it is conveyed that the picture was not properly hung.*

*Crooked to me ...*

*Crooked can mean many things, but for me the heart of it is to be different. I see the world skewed, I see the world crooked, I feel it, experience it & hear it in the only way I know how. My way. Each one of us has this one little thing that is individual to us and we should all cherish it like a priceless jewel.*

*This little E.P is not a grand statement on individualism, society, the world or some kind of half arsed political statement, it is simply music. Crooked music maybe, but it's all mine.*

## *Calika*

*Simon Kealoha is an artist based in Brighton, UK. He works with guitars, drums, pedals, electronics and collaborates to make beautifully skewed music. He has released albums and EPs with Audiobulb, Benbecula, High Point Low Life, & Polyfusia (as one part of the Clifford/Kealoha collaboration with Mark Clifford from Seefeel).*
